Omkar Bhandia

FrontEnd Developer | Full-Stack Developer

+91-9511869499 | Pune, Maharashtra | sharmaomkar715@gmail.com | LinkedIn | Portfolio | GitHub

SUMMARY:

Front-end focused full-stack engineer with 2+ years building high-performance, scalable React.js and Next.js applications for consumer-facing products. Skilled in translating product and design requirements into reusable, accessible, pixel-perfect components, integrating REST APIs, managing application state, and optimizing frontend performance across web and cross-platform experiences.

TECHNICAL SKILLS:

- **Languages:** JavaScript (ES6+), TypeScript, Python, HTML5, CSS3
- **Frameworks & Libraries:** ReactJS, Next.js, Angular 17, Redux, Tailwind CSS, Material UI, Bootstrap
- **Backend & APIs:** Node.js, Express.js, REST Web Services, AJAX, GraphQL, JSON, JWT/OAuth, Input Validation
- **Database:** MongoDB, Mongoose, NoSQL Concepts, SQL (basic)
- **Tools, DevOps & Platforms:** Git, GitHub, Docker, Vite, Webpack, NPM/Yarn, CI/CD
- **Methodologies:** Agile Methodology, Continuous Integration, Code Quality (ESLint), Team Collaboration

EXPERIENCE:

Jr. Software Engineer - Aptara Media Pvt.Ltd | March 2024 - Present

- Developed responsive React.js UI components for an EdTech platform, translating design mockups into production-ready interfaces using HTML5 and CSS3 in an Agile team environment.
- Identified and resolved UI/UX inconsistencies across the platform and integrated RESTful APIs into frontend components, managing async data flows and error handling for a stable user experience.

Full Stack Developer Intern - D-Smart Innovative Technologies Pvt. Ltd. | Nov 2021 - Feb-2022

- Developed dynamic web applications using the MERN stack (MongoDB, Express.js, ReactJS, Node.js), applying MVC architecture for clean separation of concerns and scalable server-side logic.
- Demonstrated leadership by leading the team to success in multiple in-house technical competitions during the internship.

PROJECTS:

CodeReviewer — AI Code Analysis Platform | Live | GitHub *React, Node.js, Express, Python, FastAPI, MongoDB, Google Gemini AI*

- Engineered a full-stack microservice system by integrating a React frontend with a Node.js gateway and **Python FastAPI** service, utilizing **Gemini AI** for automated code reviews.
- Deployed secure JWT authentication using HTTP-only cookies and managed persistent data storage for user review history within a MongoDB database.
- Orchestrated a decoupled production environment by hosting the static frontend on Vercel and backend services on Render for optimized performance.

DevBoard — Developer Dashboard | Live | GitHub *Next.js, TypeScript, Node.js, MongoDB, GitHub API, LeetCode GraphQL API*

- Architected a full-stack, type-safe developer dashboard using Next.js with **TypeScript** and server-side rendering (SSR), integrating the **GitHub REST API** and LeetCode **GraphQL** API for real-time tracking of commits, repos, and problem-solving streaks.
- Implemented **JWT** authentication with **HTTP-only** cookies, React Context for global state and MongoDB caching for API performance
- Deployed frontend on Vercel and backend on Render with dark/light mode, skeleton loaders and a shareable public profile URL

EDUCATION:

- **DKTE's Textile and Engineering Institute, Ichalkaranji |** B.Tech Electronics | Aug 2019 - Jul 2023
